

MSS Thinks 'Green'

MSS understands that taking steps to save the environment is the right thing to do. We have made a concerted effort make practical everyday decisions that benefit the environment.

Below are just a few examples of the ways MSS has contributed to conserving energy and natural resources:

- MSS provides order acknowledgements using email, web service and faxes electronically.
- MSS provides electronic invoicing which replaces paper invoicing for those who request it.
- MSS Technicians use handheld devices/smartphones instead of paper forms to documents service, capture signatures, send invoices, etc.
- MSS provides online order entry options as a quick and easy alternative to paper faxing.
- MSS has developed a reusable Plasma/LCD TV's container
- MSS recycle debris pickups
- MSS donates \$1 on every Dell purchase to Dell's 'Plant a Tree for Me' program
- MSS enforces an in-office recycling program
- MSS primary network suppliers practice proper recycling of used crates and wood.
- MSS converted all surveys both internal and external to convenient online collection methods
